

Demography and Life... three statements

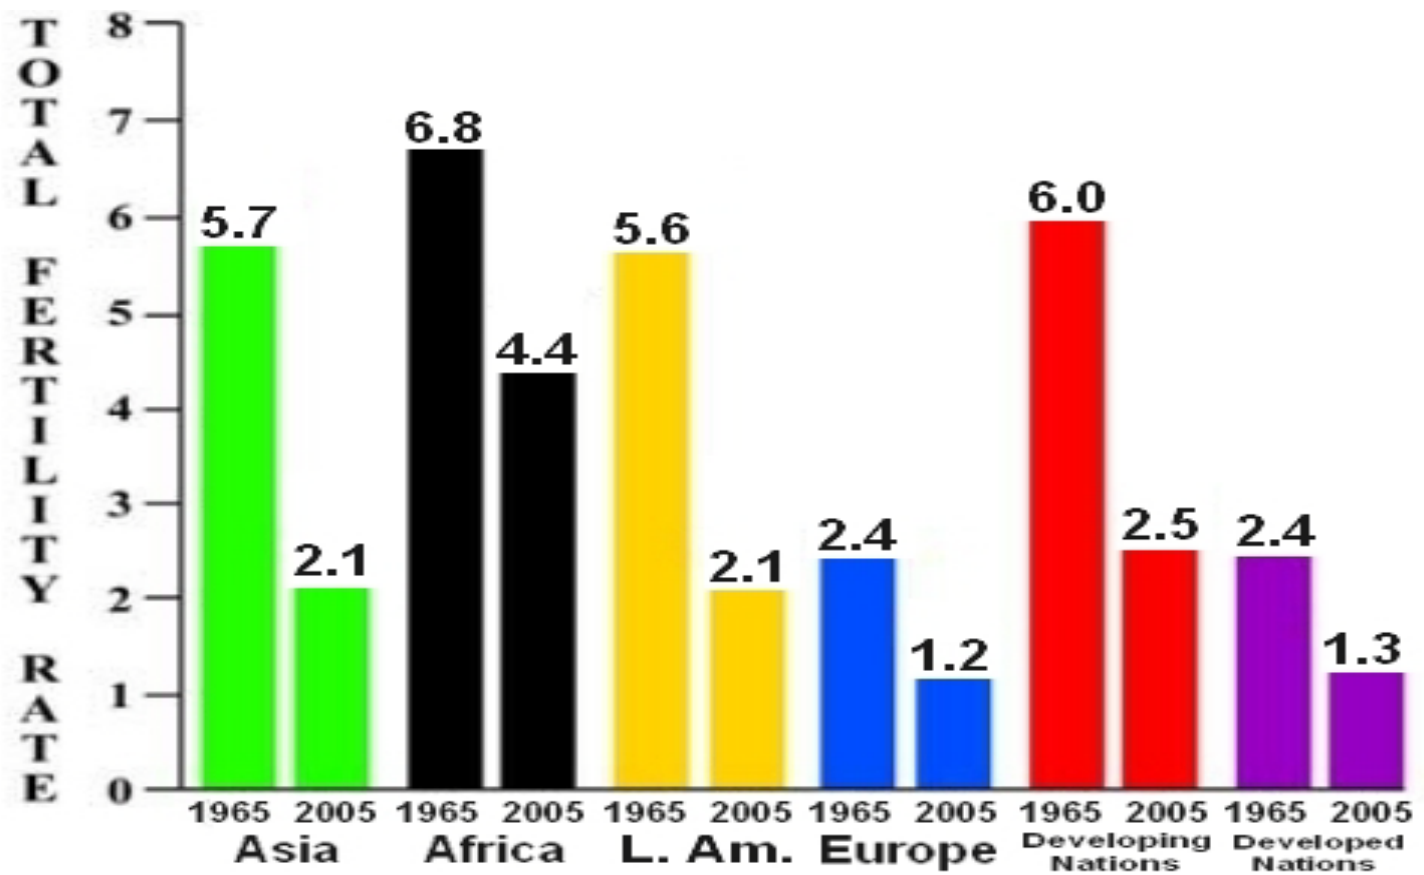

- **Demographic Basics –**
As long as we do not understand the causes of our birth deficit and identify them candidly, there will be not change for the better.
- **The underlying causes for the demise of traditional values in Europe – a brief diagnosis.**
- **Outlook – Let's speak up for family life and children – Babies are welcome – there is nothing more precious!**

Europe is dying!

Status of Abortion Laws in Europe

Total fertility rate ...1965 and 2005

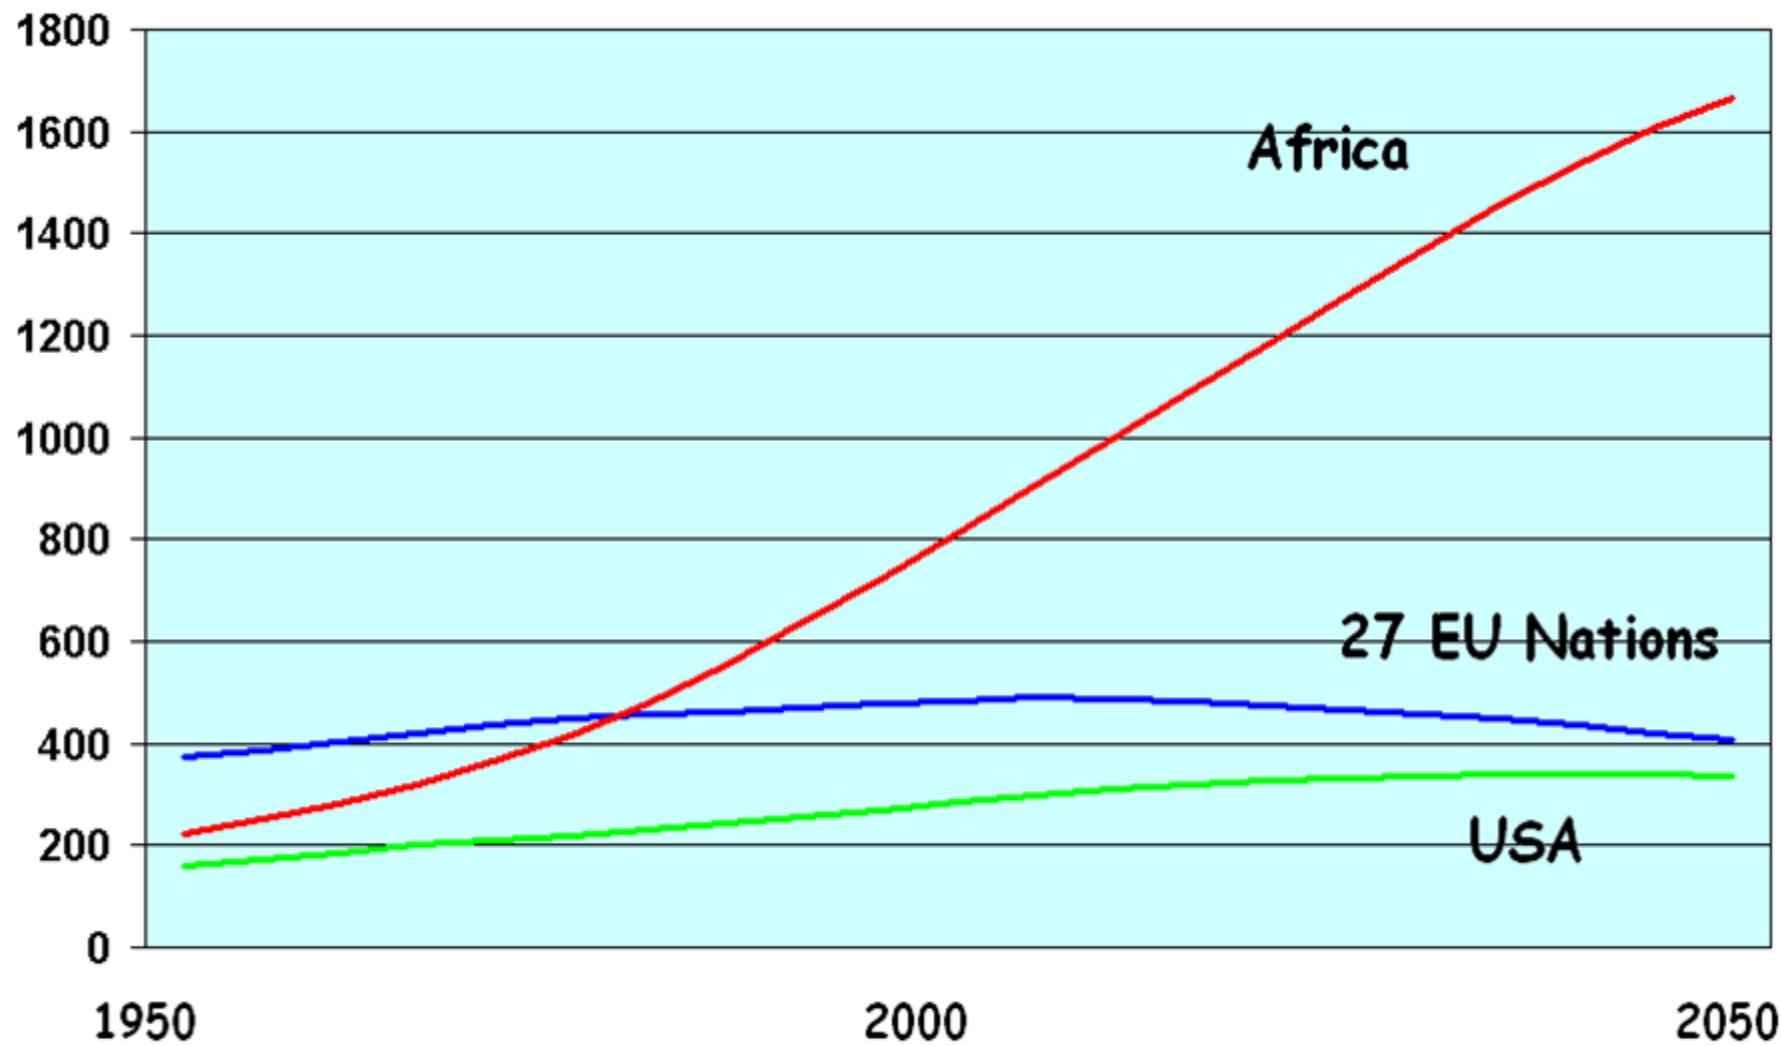

and the children will carry the burden of the world

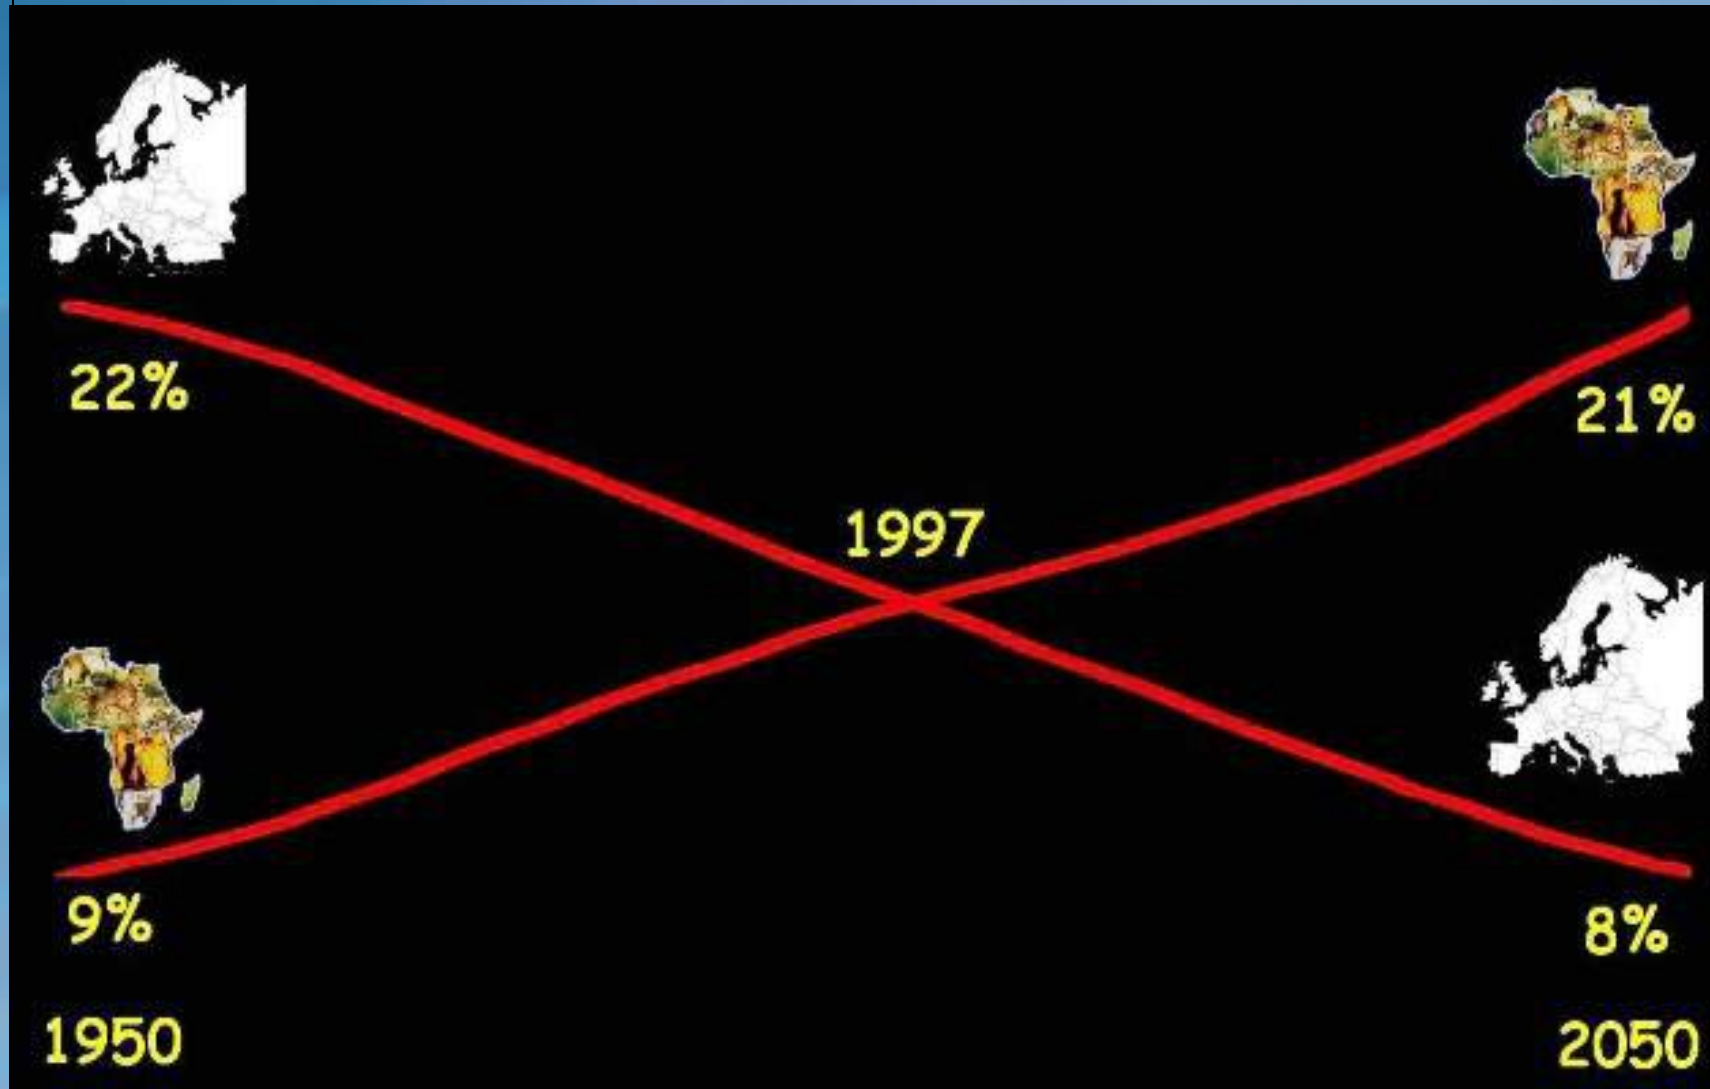

The Demographic Impacts of Abortion and "Family Planning"

1

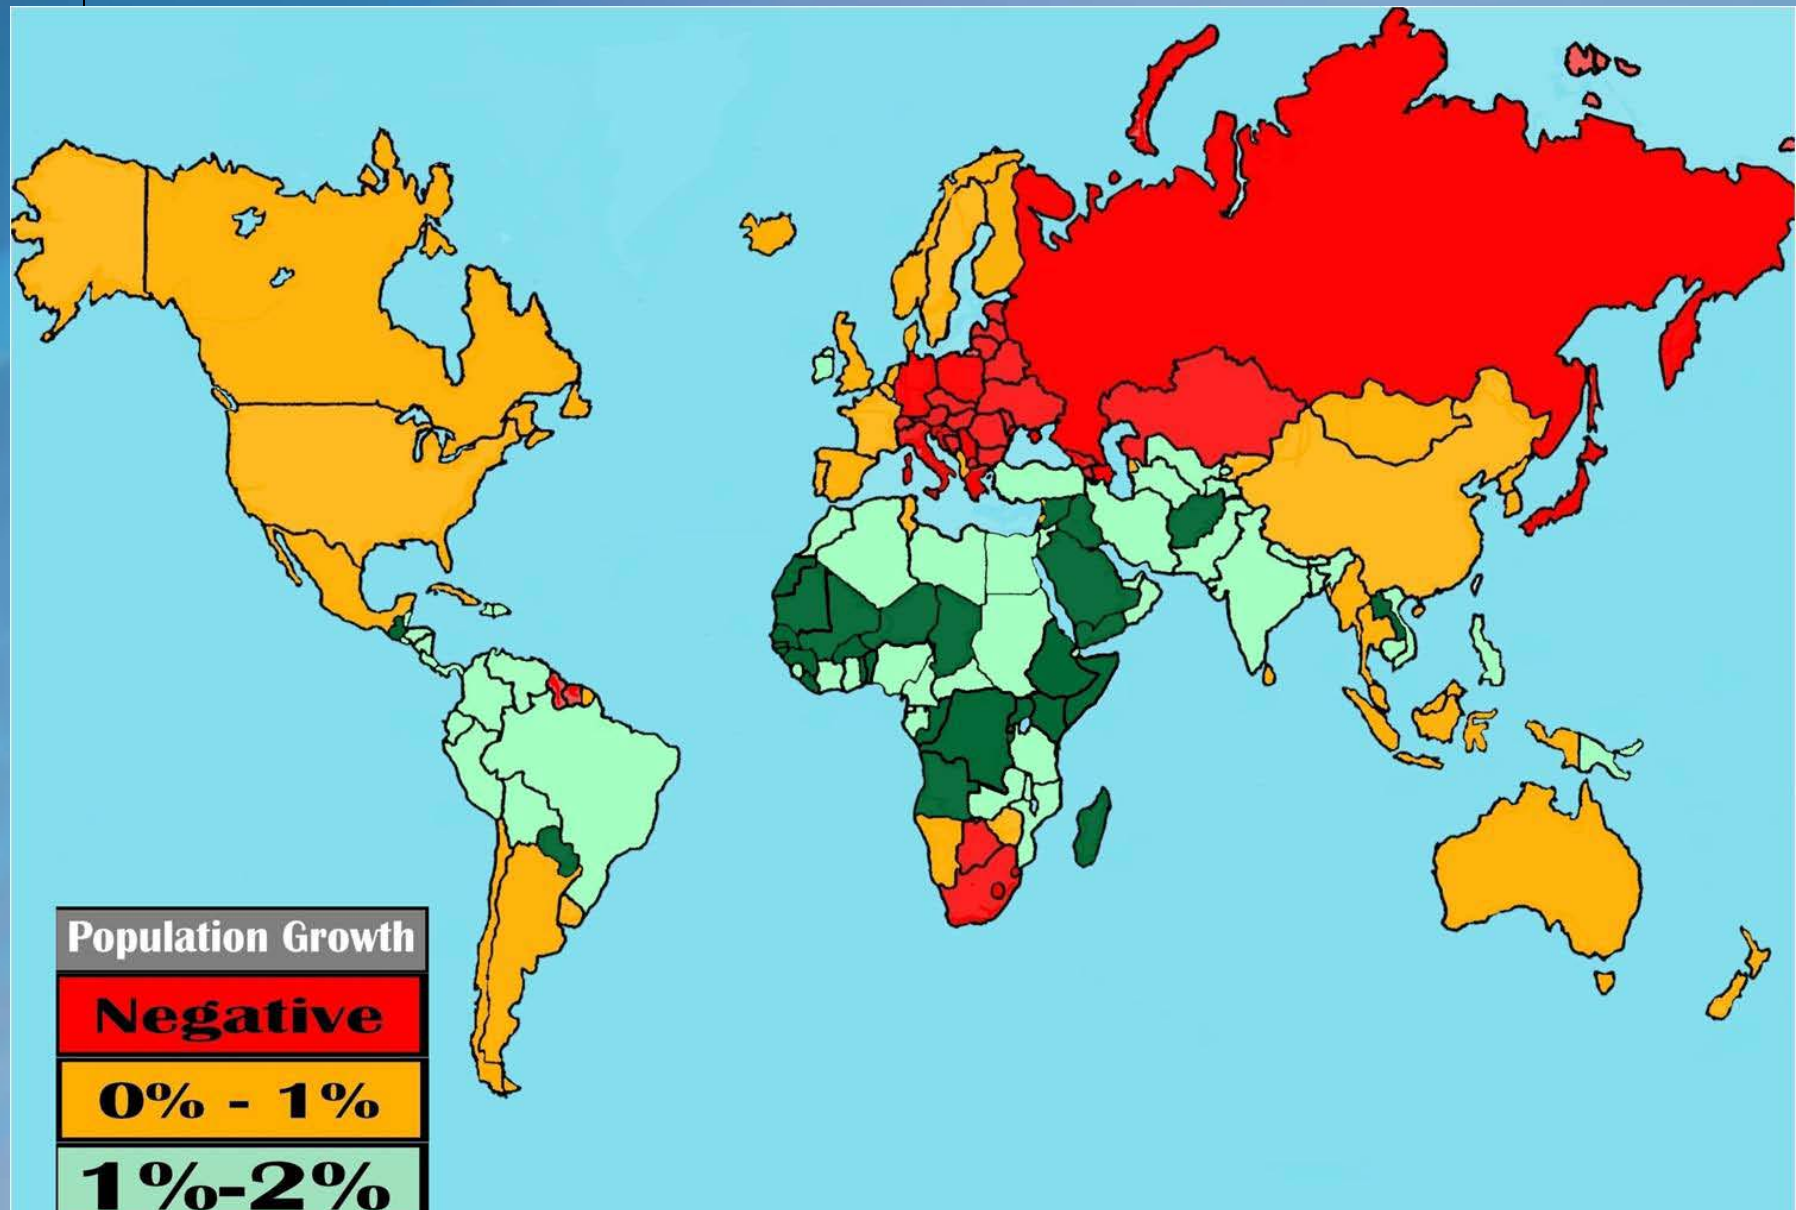

A world map with a light blue background, showing the distribution of three groups across the continents. The map is color-coded: Red covers North America (USA, Canada), most of Europe, Russia, Australia, and parts of South America and Africa. Green covers Brazil, most of Africa, India, China, and parts of South America and Southeast Asia. Yellow covers Mexico, Central America, the Caribbean, and parts of Africa, Asia, and South America.
